AND FINANCIAL REGULATION

THE HONORABLE TREGENZA A. ROACH, ESQ.
LIEUTENANT GOVERNOR
AND
CHAIRMAN, VIRGIN ISLANDS BANKING BOARD

GWENDOLYN HALL BRADY
DIRECTOR

1.

Know How Much Income You Bring Home on a Monthly Basis.

Review all your sources of income to know, after deductions, just how much income you have monthly to pay your bills and for the necessities of life.

2.

Separate NEEDS from WANTS!

Needs are your basic necessities for survival, such as housing, food and transportation. Wants are not necessary but are enjoyments, such as buying lunch everyday instead of bringing your lunch to work. Calculate how much you spend for lunch daily, then how much you spend for lunch monthly times twelve. You could have saved this amount with interest in one year, had you eliminated buying lunch everyday.

3.

Develop a BUDGET and Stick with it!

Make every effort to live within your means. Realize that emergency expenditures do come up. Be Prepared.

4.

Pay Yourself FIRST!

Yes, you can save, no matter your income level. Determine an amount that you can save monthly or every pay period. Have a specific amount transferred to your savings account every pay period.

5.

PAY Your Bills AUTOMATICALLY from your Bank Account.

Manage your bill payments at the same time that you manage and reconcile your account electronically.

6.

Pay Your BILLS on TIME.

Avoid penalties for 30-day, 60-day, 90-day and 120-day late payments. Improve your credit score by paying your bills on time. Develop good relationships with your creditors by being creditworthy. This will help in the event of a hurricane or other disaster, by allowing you to qualify for a moratorium on a loan payment.

7.

Pay More than the Minimum

Amount Due on CREDIT CARDS

Review your credit card bills and the minimum payment due. Always try to pay more than the minimum amount due on every card, where possible. Select the card that has the highest interest rate and pay more on that bill to reduce the balance, until you pay the balance in full.

8.

Talk to Your Bank or Credit Union About SAVING and INVESTING

Products that will Meet Your Needs.

Learn about your financial institution's products and services. Select those that meet your needs.

9.

Consider Other Forms of INVESTMENT.

If saving to buy a home or car, consider investing in stocks, bonds or real estate/undeveloped property.

10.

Are You Young and Just Starting Your WORK HISTORY and CREDIT HISTORY?

Spend carefully. Limit your credit applications and the amount of credit cards you obtain. Pay your bills on time. Build a good credit reputation. For example, purchase a used car initially, pay it off, and buy a new car later. Many jobs require credit reports. Maintaining good credit can help advance your career.
